CAREER OBJECTIVE

A highly motivated and enthusiastic individual with solid foundation in programming languages and development tools, eager to contribute to a growth-oriented company while continuously enhancing my skills and gaining industry experience.

PROFILE SUMMARY

A motivated and adaptable fresher with a Bachelor's degree in Information Technology and a CGPA of 8.23. Constantly driven by a passion for learning, I have developed core skills in Java, Spring, Spring Data JPA, MVC, Spring REST, Microservices Servlets, JSP, JDBC, HTML, CSS, JavaScript, Bootstrap, React, Waterfall and Agile methodologies. Known for my eagerness to explore and adapt to new technologies, I am excited to contribute to innovative projects, collaborating with cross-functional teams, and further enhance my skills in a dynamic professional environment.

TECHNICAL SKILLS

- Backend: Java, Spring, Spring Boot, Spring Data JPA, MVC, Spring REST, Microservices, Spring Security, Servlets, JDBC, JSP.
- Frontend: HTML, CSS, JavaScript, Bootstrap and React.
- Database: Oracle, MongoDB.
- Tools: VS code, Eclipse, GitHub, Git and EditPlus.
- MS Word, MS Excel and PowerPoint Presentation.

PROJECTS

- **Students Management System**
    - Built a comprehensive web application to assist engineering colleges in improving students' academic and extracurricular performance. The system enables efficient tracking of student progress and management of records, generation of insightful reports to support faculty and administration in making informed decisions. Focused on creating a user-friendly and responsive interface for seamless functionality.
    - Technologies Used: Java, HTML, CSS, JavaScript, Bootstrap.
- **Students Achievements Management System**
    - Created a web application to track students' academic and extracurricular achievements in institutions or colleges. The system enables efficient management of performance records, offering tools to monitor and analyze student progress, and generate reports for faculty and administration. Focused on delivering a user-friendly and interactive interface with reliable backend functionality.
    - Technologies Used: Java, JDBC, Servlets, JSP, HTML, CSS, JavaScript and Bootstrap.   [GitHub Link](#)
- **Employee Management System**
    - Developed a web application to manage employee records with features like CRUD operations, secure authentication and role-based access. Focused on enhancing efficiency with a responsive design and interactive dashboard for workforce insights.
    - Technologies Used: Java, Spring Boot, Spring Data JPA, Oracle, HTML, CSS, JavaScript and Bootstrap.

EDUCATION

- B.Tech in Information Technology - Bapatla Engineering College, Bapatla (2021-2024), CGPA:8.23
- Diploma in Automobile Engineering - Andhra Polytechnic Kakinada (2018-2021), 90%
- Secondary School Certificate (SSC) - AMG REM HIGH School, Bheemunipatnam (2017-2018), GPA:10.0

CERTIFICATIONS

- Java (Udemy, Simplilearn).
- Web Development (Internshala).
- Project Management Essentials.
- Agile Scrum Foundation and Agile Scrum Master (Simplilearn).

DECLARATION

I hereby declare that all the information provided above is accurate to the best of my knowledge.
